**Minutes:**

MARGO WHEELER, Director of Planning and Development, stated that this bill addressed corrections needed in the Code. This would reduce the parking requirement for bakeries to match the requirements for retail uses, base the parking requirement for the church/house of worship use on linear feet rather than linear inch of seating, and allow a waiver of the distance separation requirement for taverns if they are located in a gaming overlay zone. This would also redefine mixed-use to allow for the expiration of site development plans and special use permits to coincide and would remove used books from the secondhand sales.
